Dear Mrs Tinsley

**WEEDS ACT 1959 - COMPLAINT**  
**Land off Station Road, Kingham OX7 6UH**

As you are aware an Inspector from the Rural Payments Agency visited the above land on 24 September 2021.

The inspection report states:

*No enforcement action taken because the landowner has mown and removed the ragwort stems and flowers leaving only vegetative stage plants. In taking this remedial action (the only option at this time of year) any further spread of ragwort this season has been averted. Further control should be considered in the spring & summer of 2022.*

In view of this no further action will be taken and the complaint will be closed.

We thank you for your co-operation in this matter.

Yours sincerely,

*Jayne Olden*
